## **Getting Started**

## Introduction

uListing is a new groundbreaking plugin from StylemixThemes. If you wanted to create a professional business listing site on WordPress without spending a big sum, then uListing is exactly what you need. With our free plugin you can create a listing business in a matter of minutes and you don't even need a premium WordPress theme. uListing plugin is built on Vue.js with care and love, so to make your experience with the plugin as easy and pleasant as possible.

Some of the features of the uListing – Listing and Classified Ads WordPress Plugin include:

- Fully customizable form fields
- Drag & Drop Builder to create an inventory grid, list and single layouts
- Sorting options for categories, listings, and front-end for users to choose sort order
- Possibility to post listings without access to WP dashboard
- Accept payments using PayPal, Stripe
- Configurable quick-search field and sorting bar for listings
- Advanced search screen with ability to show/hide fields available for search
- Upload images per listing, allow restricted numbers of images based on fee plan
- Lots of image options: drag & drop image uploads, easy image ordering, primary image settings and more
- Attributes, Options displayed with images
- One Click Demo Import

### System Requirements

To install the uListing – Listing and Classified WordPress Plugin you must have a working version of WordPress already installed. For information regarding the installing of the WordPress platform, please see the WordPress Codex at <u>http://codex.wordpress.org/Installing\_WordPress</u>.

## **Installation and Demo Import**

### **Installing the Plugin**

You can install the plugin just as you would install any other WordPress Plugin.

Before installing the "uListing" plugin, please ensure your WordPress installation meets the following requirements:

- WordPress 4.6 or higher
- PHP 5.6 or higher (PHP 7.0 Recomended!)

Installing "uListing" plugin is just like any other WordPress plugin.

Navigate to your WordPress "Plugins" page, inside of your WordPress dashboard click "Add New" and follow these instructions:

🚯 📸 Wordpress 📮	0 + New		Howdy, admin

#### uListing – Classified Ads & Listing WordPress Plugin User Manual

From the URL, copy the list type ID and from Listings  $\rightarrow$  categories get the category slug and put them to the shortcode.

[/] Shortcode	[ulisting-category category="sale_8741" listing_type_id="10" ]
-	

After writing the shortcodes, save the changes and see your page, there will be listings which are contained in this Listing Type and in this Category that you specified. In my case, the type of listing

is cars, and the category is sale.

## Page Settings

Here are the pages that are created and specified when importing a demo content.

## **Inventory Layout.**

uListing Settings Main Pages Inventory layout Payment Cron Inventory Basic Html box Columns SHort code Tabs Filter General Title Filter List Map Sort Column switch List Pagination

Here you can see the ready inventory layouts or create your own inventory layout.

### What is the inventory layout?

Usually in the business of inventory more customers use ready-made inventory templates. With our plugin, you can create any type of inventory templates from scratch. important thing that you can create and customize any type of view, for example, Grid View, List View, Map View, etc. Our developers have tried their best to make an excellent plugin with great functionality.

After the demo import you will have 3 made inventory layouts.

Here, if you want to create your own inventory layout, click the **Create New Layout** button and write the name of the layout.

uListing Settir	ngs					
Ma	ain	Pages	Inventory layout	User roles	Payment	Cron
	T T T T T T T T T T T T T T T T T T T		_		Name layo	CREATE
					Basic Columns SHort code	A Html box Tabs
					General	^
					Title	Filter
					Sort	Column switch
					Pagination	

Here, if you write the name of the layout, click the "Create" button.

uLis	ting Settings							
	Main		Pages		Inventory layout	User roles	Payment	Cron
Crea	De new yout	Layout 4	My Custom Inventory	×	Þ.		Basic Columns SHort code General	ETE SAVE
							Title	Filter

uListing Settings Pages User roles Cron Main Payment Inventory layout Create new layout My Custom Inventory Ε. T T T Basic Html box Column SHort code Tabs + Filter Title List Map Sort Column switch  $\bigcirc$ Pagination

Here, with these basic and general elements, you can start creating a layout.

## **Creating Layout**

First click on the plus button to add a section.

uListing S	ettings								
	Main			Pages	Inventory layout	User roles	Payme	nt	Cron
Create new layout	Inventory	Map	Layout 4	My Custom Inventory				My Custom Inventory DELETE	SAVE
					÷			Basic Columns SHort code General Title	Html box Tabs  Fiter  Kap

After adding a new section, you can hover over these draggable buttons. In our builder, you can easily move or change the position of the section elements by dragging.

uListing Se	ttings								
	Main			Pages	Inventory layout	User roles	Payı	nent	Cron
Create new leyout	Inventory	Мар	Layout 4	My Cutton Investory	•		<b></b>	My Custom Inventory OLLITE Basic Columns Sifort code	SAVE A Htel box Telos
					•			General Title List Sort	Filter Map Column switch

uListing Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
Create new Byout	Layout 4			My Custom Inventor	ry SAVE
				Basic	^
		× 1		Columns SHort code	Html box Tabs
		+		<b>General</b> Title	Filter

Each section has three buttons (Edit section, Move section, Delete section).

In the "Edit Section" you can change the section styles, such as the background color, and also make the full width or you can set indents for adaptive.

✓ Section		< Section
Style	Advanced	Style Advanced
Background color	0	Full width
		Class
		Margin
		TOP RIGHT BOTTOM LEFT
		TOP RIGHT BOTTOM LEFT

In the "Move Section" you can swap this section with other sections by drag and drop. For example:

uListing Se	ttings								
	Main			Pages	Inventory layout	User roles	Payr	ment	Cron
Create new layout	Inventory	Map	Layout 4	My Custom Inventory				My Custom Inventory DELETE	SAVE
								Basic	^
					1			Columns	Html box
								SHort code	Tabs
					/			General	^
					+			Title	Filter
								List	Map
								Sort	Column switch

Hover over this button and hold the left side of the mouse and move.

uListing S	ettings										
	Main			Pages		Inventory layout	User roles	Paym	ent	Cron	
Create new Jayout	Inventory	Мар	Layout 4	My Custom Inventory		•		•	My Custom Inventory DELETE Basic Columns SHort code	Html box Tabs	SAVE ^
					<ul> <li>Q</li> <li>+</li> </ul>				General Title List Sort Pagination	Filter Map Column switch	^

Each section has a row, and each row has a column. With this structure, you can create any type of layout. It is like a Grid system.

About the Grid System you can find more information here <u>https://getbootstrap.com/docs/4.1/layout/grid/</u>

Ok, let's create a custom layout.

We will add a new section, then we will use general and basic elements to create a layout template. Here we will use columns first. Then there are other elements in the columns.

Main	Pages	Inventory layout	User roles	Paym	ent	Cron
Отт	1				My Custom Inventory	
ate new layout Inventory Map	Layout 4 My Custom				DELETE	SAVE
		•			Basic	
				▶ 🖓 🕹	Columns	Html box
					SHort code	Tabs
					General	
					Title	Filter

If you click the edit button here, the row column settings will appear. And there you can select the column settings. If you want three columns, just select 3, and the column will be divided into 3.

isting Settings Main	Pages	Inventory layout	User roles	Payment	Cron
0 1 1				My Custom Inventory	,
Create new layout Inventory Map	Layout 4 My Custom			DELETE	SAVE
				< Row	
				Column	Advanced
				Column	
		+			

But we do not want it now. We want to add a column first. Let's do it. Just drag this element to the section.

Main	Pages	Inventory layout	User roles	Paym	ient	Cron
Этт	7 7				My Custom Inventory	
yout Inventory Map	Layout 4 My Custom Inventory				DELETE	SAVE
		•			Basic	
					Columns	Html box
					SHort code	Tabs
					General	
					Title	Filter
		+				

Now we have a section in which there are columns, so now click the edit button that you recently added. And select your choice to split the columns. In my case 3. I mean that I want to split a column into 3 parts.

	Main			Pages	Inventory layout	User roles	Payment	Cron
Đ	т	т	т	T.			My Custom Invent	ory
reate new layout	Inventory	Map	Layout 4	My Custom			DELETE	SAVE
				Inventory				
							< Columns	
							Column	Advanced
							Column	
					+			
						/		
						-		
isting Sot	tings							
isting Set								
	<b>tings</b> Main			Pages	Inventory layout	User roles	Payment	Cron
	Main	т	Ŧ	Pages		User roles	Payment My Custom Invento	
<b>G</b> reste new		Map	Layout 4	My Custom		User roles		ry
<b>G</b> reste new	Main		=	Ĩ		User roles	My Custom Invento	
	Main		=	My Custom		User roles	My Custom Invento	ry
G	Main		=	My Custom		User roles	My Custom Invento	ry
G	Main		=	My Custom		User roles	My Custom Invento	ny save
<b>G</b> reste new	Main		=	My Custom		User roles	My Custom Invento DELETE Columns	ny save

Then click the Save button to save the changes. if you fail, repeat this repetition carefully.

Now we will add another one columns.

uListing S	ettings						
	Main	Pages	Inventory layout	User roles	Paym	nent	Cron
Create new layout	My Custom Inventory	Inventory Map Layout 4				My Custom Inventory DELETE	SAVE
						Basic	^
						Columns	Html box
						SHort code	Tabs
						General	^
						Title	Filter
			Columns Columns			List	Мар
			<u>a</u>			Sort	Column switch
			+			Pagination	

Here I want to divide this column into 2 parts.

uListing Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
Create new layout My Custom Inventory Inventory	Map Layout 4			My Custom Inventory DELETE	SAVE
				Basic Columns SHort code General	Html box     Tabs
				Title List Sort Pagination	Filter Map Column switch
				Dz	

It looks great, right? But I want to resize the parts of the second column. For example, I want the size of the parts of my second column to be like this.

col-sm-8	col-sm-4

The columns can be divided into 1, 2, 3, 4, 5, 6 and 12. So it is very flexible.

I divided one column into 2 parts. Now I want to also split the child columns. Now I have two child columns with a size of 6 columns. 6 + 6 = 12 full column size.

Here, click the "Edit" button and select "Advanced" tab, and here you can see the size of the columns by clicking to the drop-down.

uListing Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
Create new Isyout	Map Layout 4 My Custom			My Custom Inve	_
		•		Column Style	Advanced
		go		Class Size of columns None	
		۲		Margin	

Now I changed the size of this part to 4.

uListing Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
Craste new Byood Inventory Map	Layout 4			My Custom Inver	save
				Style	Advanced
				3 4 5 4	•

And this part to 8.

TOP RIGHT BOTTOM LEFT

1	2		3
4		5	

And here we will add these elements.

- 1. Title
- 2. Html view box for viewing text, Column Switch
- 3. Sort
- 4. Filter
- 5. List, Pagination

uListing Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
Create new layout Inventory Map	Layout 4			My Custom Inver	tory SAVE
Title				Basic Columns SHort code	A Html box Tabs
				General	Filter
				List Sort	Map Column switch
				Pagination	

After adding the title, you can click the edit button to see the title options

You can change the background color or padding, margins for different screen sizes, and you can choose a template style.

Now select template style and click save.

Create new layout	My Custom Inventory	Inventory	Мар	Layout 4		DELETE	SAVE
						< Title	
	Title					 Style Template	Advanced
						Title	
						Style 1 fm	

drag the rest of the requirement 5 elements that I recently told you.

	•	< Html box
Title	Html box View:	Html Style Advanced Title View:
		Html code
Filter	List	
[]	Pagination	

Select template styles for each element.

ζ Column switch	< Sort	↓ Filter
Style <b>Template</b> Advanced	Style Template	Advanced Style <b>Template</b> Advanced
Style template	Colong sates  Style 1	Style template
< List	A	< Pagination
Style <b>Tem</b>	plate Advanced	Style Template Advanced
Style template		Style template

After that, click "Save button" to save the changes. Now our first custom inventory layout is ready. Let's make the settings for the payment gateway.

## **Payment Gateway Settings**

### **Paypal Standard**

If you do not know about Paypal Gateway, you can read this manual to learn about it.

https://www.paypal.com/us/webapps/mpp/how-paypal-works/overview

https://developer.paypal.com/docs/

There you need to create two accounts (Business (Seller) & Personal (Buyer)), I have already created these accounts. If you also created PayPal accounts, then install PayPal.

sting Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
<b>PayPal standard</b> PayPal Standard payment	method allows you to accept	: payments for Single (One Time) Pricing	Not installed Packages.		<b>≵</b> INSTALL
Stripe			Not installed		▲ INSTALL

### After that, click on the settings button.

Listing Settings					
Main	Pages	Inventory layout	User roles	Payment	Cron
PayPal standard PayPal Standard payme	ent method allows you to accept p	payments for Single (One Time) Pricing	Installed g Packages.	¥ UNINST	ALL & SETTINGS
Stripe Stripe payment method	d allows you to accept payments (	directly for web and mobile.	Not installed		<b>≛</b> INSTALL

Here you need to write your Paypal Business account and select the sandbox payment mode (test mode) or "Live", and in the latter case, copy this IPN url and put it into your PayPal Business account, After that, just click on the Save button.

Main	Pages	Inventory layout	User roles	Payment	Cron
Back					
yPal Standard	Settings				
PayPal email					
					5
Mode			•		
	Sandbox				
	Live				

Now you have set up your PayPal gateway on your side. There you have to put your IPN URL.

## Stripe

If you do not know about Stripe Gateway, you can read this manual to learn about it.

### https://stripe.com/docs

There you need to create account, I have already created this account. If you also created Stripe account, then install Stripe.

isting Settings.					
Main	Pages	Inventory layout	User roles	Payment	Cron

						Additional Information	Condition
							Milazan

Here you can see a very large builder. Now we will explore it.

- 1. This is a grid view. Now by default it is also a grid view.
- 2. This is a list view. You can click to see its view.
- 3. This is a map view. You can click to see its view.

- 4. Grid, list and map templates are available here. You can customize the size of their columns in some views and you can select templates to display them.
- 5. The basic elements for displaying attributes using the Attribute Box, Thumbnail Box and with shortcodes.
- 6. The general attributes.
- 7. View Content.

To collect content page, you need to see the Inventory Layout chapter, in which we explained how to create a layout.

uListing					
Attribute	👪 Grid 🗱 List	<b>Q</b> Map info window	LIST CONFIG ~		AVE

You can learn more about uListing Compare in the chapter on add-ons.

## Listings

## **Adding listing**

To add a new list, you must first create an account. Create a new account with an available user role.

Login	Login
Enter login	Enter login
Password	First name
Enter password	Enter first name
Remember me Forgot Password	Last name
Login	Enter last name
Login	Email
	Enter email
	Role

After registration you will be redirected to this page. Here you can view the payment history, your plans, or you can add a new list with available list types, or you can buy a new plan. Now by default there will be a simple user role with one free listing limit. But you can create other user roles from the admin dashboard if you purchased for User Role Add on.

## Account

	<u>+ Add listin</u>	lg		<u>Buy plan</u>	
		_			
Dashboard	<u>My plans</u>	Payment history	My listing		
Dash	boar	d			

Now we will add a new listing for the Building Listing Type.

To create a new list, click the Add Listing button.

# Add listing

Building	Cars
Select	Select

Here you need to select the type of listing. Select building type.

Add list	ing		
11			
Free			
2/0			
select			
le			
drooms			

Fill in all the requirements fields here.

If you have completed all the requirements fields, click the "Create" button. Price
